

Product Overview (Swivel-Bolt) (Standard) Safe Lock Option

This lock option is supplied as (standard) with the purchase of an (ECL), (L02), (L22) and (BIO) electronic model. The high quality swivel-bolt operated stainless-steel safe lock provides a keyless and convenient entry solution based on the standard (3) wheel combination lock footprint.

1000-LK1 Electronic Safe Lock

Product Benefits

- Is constructed for strength, and is a quality all stainless-steel safe lock.
- Is retrofit to the standard (3) wheel combination lock footprint.
- Is certified as withstanding (10) times the bolt-head pressure requirement of the Australian standard AS4145.2.
- Is patented and Australian Made.
- Is registered with a unique 'Super Code' that allows the lock to be reset to its factory settings.
- A 'Reset' button pairs a lock to an entry pad.
- This same safe lock has been adapted to provide a restricted profile override 'Wave' key solution.

Alternative Lock Option

A 'Dead-Bolt' lock version.

This unit is patented and Australian Made

Product Overview (Swivel-Bolt) (Key-Override) Safe Lock Option

This lock option is supplied as (standard) with the purchase of a (BLE) Bluetooth model. For all other electronic models, a restricted profile override key safe lock can be provided on request.

Product Benefits

- The cost benefit of not having to invest in a special redundant override plate system when an electronic opening is not possible.
- The knowledge that as the lock is registered, a key(s) can be supplied at the time of purchase or supplied at time when a key opening is necessary. This option may suit some end-users where the availability of a key(s) creates concern.
- The knowledge these restricted profile keys are assembled. A joint agreement with a compliant service agency will allow these keys to be assembled on-site and dismantled once the key has served its purpose.
- Please refer to the 'RQK - Restricted Quick Key' brief for further information on this option.
- The (6) pick resistant levers with a registered restricted profile 'Wave' key offers the ultimate in security within the one universal safe lock footprint.
